# 2021 School Accountability Report Card

## General Information about the School Accountability Report Card (SARC)

#### **SARC Overview**

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <a href="https://www.cde.ca.gov/ta/ac/sa/">www.cde.ca.gov/ta/ac/sa/</a>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <a href="www.cde.ca.gov/fg/aa/lc/">www.cde.ca.gov/fg/aa/lc/</a>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest web page at <a href="mailto:dq.cde.ca.gov/dataquest/">dq.cde.ca.gov/dataquest/</a> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <a href="www.caschooldashboard.org/">www.caschooldashboard.org/</a> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

#### 2021-22 School Overview

John Muir Charter Schools (JMCS) is a WASC accredited high school that specializes in serving the educational needs of young men and women, most between the ages of 16 and 25, who are seeking to improve their lives by earning a high school diploma while participating in vocational training opportunities. JMCS partners with state, local and federal programs such as the CA Conservation Corps, Local Conservation Corps, YouthBuild and Workforce Innovation and Opportunity Act programs which provide part-time and full-time vocational training for students. JMCS is the educational provider for these programs and commits to serving all students in need of a high school diploma who enroll in these programs. JMCS teachers work closely with partner agency staff to seamlessly integrate the work, life skills, community service and academic experiences of students. We are a committed and passionate team of educators dedicated to serving some of the most high-need students in the state and ensuring they graduate with the ability to attain lifelong, sustainable employment and become active and productive citizens in their communities. 100% of JMCS students are former high school dropouts; our students have attended an average of two schools before JMCS. Students enroll with JMCS because they are ready to change their lives and prepare themselves for a more successful future. 95% of our students are either low-income, homeless or foster youth or some combination of the three. They arrive with many challenges and barriers, such as housing instability, mental health challenges, addiction, lack of transportation, lack of childcare and basic academic skill deficiencies. We work diligently to support each student's individual needs by addressing academic, vocational and social-emotional development through a personalized approach. In addition to offering tailored and engaging standards-based academic instruction towards a high school diploma, JMCS also provides classes in life skills, job readiness, career pathways, parenting, suicide prevention and anger management. Our school sites offer multiple wrap-around services for students, such as special education support, case management, caseworkers, probation, WIC, EBT, and other social services. When possible, JMCS works to coordinate with other service providers in order to gain insights and recommendations about how to increase and maintain student success in our programs.

The mission of John Muir Charter Schools is to meet the unique educational, social and emotional needs of our diverse student population in safe and nurturing environments that fosters personal, professional and academic growth. Through collaboration with our partner agencies and relevant, rigorous instruction toward a high school diploma, students gain the skills to achieve lifelong, sustainable employment and become proactive members of their communities.

# A. Conditions of Learning

# **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at  $\underline{\text{https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp}}$

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Total Out-of-Field Teachers	12.5

# 2020-21 Class Assignments

Indicator	2020-21
Misassignments for English Learners (a percentage of all the classes with English learners taught by teachers that are misassigned)	0.0
No credential, permit or authorization to teach (a percentage of all the classes taught by teachers with no record of an authorization to teach)	5.3

## 2021-22 Quality, Currency, Availability of Textbooks and Other Instructional Materials

In 2021, John Muir Charter Schools continued full use of Odysseyware, an online credit recovery platform aligned with state standards and updated annually. Some sites continue to use the AGS textbook series for some core subject areas, which was last adopted in 2005 as this curricula remains accessible for our student population. In 2019-2020 we adopted a variety of supplemental instructional materials in English, math, science and history-social science that teachers and students have available to them and in the 2020-21 school year these materials were fully implemented across the state. Our classrooms have sufficient instructional materials for all students. The CA State Board of Education does not officially adopt textbooks or instructional materials for Grades 9-12; however, our textbook adoptions are in line with CA content standards, CCSS and recommended SBE guidelines.

#### **B. Pupil Outcomes**

### **State Priority: Pupil Achievement**

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### **Statewide Assessments**

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### **Options**

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

#### 2020-21 Career Technical Education Programs

In 2020-21 the JMCS Career Pathways Trust Program (CPT) was administered statewide. This program includes general career and college awareness and preparation curriculum across multiple industry sectors. Additionally every JMCS site is working with a federally or state supported work training program, either with the California Conservation Corps (CCC), a certified Local Conservation Corps, YouthBuild or WIOA program to deliver to students comprehensive work readiness curriculum. The CPT delivers pathway instruction and training in four identified industry sectors. The specific pathways and accompanying training, certification and activities vary by location. For example, in some areas students are working with GRID Alternatives to design and implement solar install and sales training programs within the energy and utilities pathway. Our CCC locations provide training and work experience in the natural resources pathway. Many of the WIOA locations focus on the National Retail Federation Customer Service and Sales Certification as a nationally recognized certification in the Hospitality, Recreation and Tourism sector. The CPT has connected with the statewide America's Job Center of California network to offer "On the Job Training" (OJT) opportunities and work opportunities to our students. The CPT has connected with the statewide community college network to promote post-secondary education, Career Technical Education trade programs and offer dual enrollment programs to students who are ready for college-level curriculum. The CPT program offers multiple career tracks in Hospitality, Recreation, and Tourism; Medical and Medical Technology, Agriculture and Natural Resources, and Energy and Utilities sectors across California. At this time the school does not offer CTE courses directly due to the dispersed nature of the school across a large geographic area.

## C. Engagement

# **State Priority: Parental Involvement**

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

### 2021-22 Opportunities for Parental Involvement

Only 10% of JMCS students in the 2021-22 school year are below age 18. The parents of these students have regular contact with JMCS teachers and directors and are invited regularly to participate in school activities, meetings, and the LCAP process. For those students over age 18, JMCS considers our partnering agencies the "guardians" of students. JMCS teachers and staff meet daily with our partnering agency staff, planning and implementing the holistic academic, vocational, life skills and leadership programs JMCS provides to students.

# **State Priority: School Climate**

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

#### Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2018-19	School 2020-21	District 2018-19	District 2020-21	State 2018-19	State 2020-21

Expulsions	0.00	0.00	0.00	0.00	0.08	0.00

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

#### 2021-22 School Safety Plan

JMCS has an extensive, board approved safety plan developed in coordination with and approved by the Nevada County Superintendent of Schools. The safety plan is reviewed and updated annually in January, with board approval in February or March. The safety plan includes an assessment of anticipated hazards that would endanger school staff and students, along with outlining the plan for responding to these situations and the chain of command for response.

#### 2020-21 Types of Services Funded

John Muir Charter Schools' primary program focus is providing instruction toward a high school diploma. Curriculum and instruction is offered to cover all the core subject areas required to graduate along with computer skills, health and a variety of electives. Staff conduct skills assessments and transcript analysis to develop an individualized plan for each student that meets their unique credit goals and skill needs to get them to graduation. Additionally, the school offers career and life skills development and access to vocational training through our partnerships. 1-on-1 tutoring is available for students requiring additional support and the school provides access to mental health services, both group and individual counseling. The school also provides connections to local organizations who can assist students with other supportive services.

### **Professional Development**

In 2020-21, JMCS provided five days (30 hours) of professional development to all staff through our annual in-services in October, December, March and May. Staff attend a variety of workshops coordinated by the Director of Professional Development. Workshop content is determined based on our annual spring review of student achievement data from our local assessments as well as through staff input and alignment with our schoolwide goals. The JMCS professional development cycle is set in three-year blocks with coordinated trainings that build on each other. PD focused on courageous conversations about race, effective distance learning strategies and mental health and wellness. PD also included opportunities to explore new curriculum and course outlines. Workshops were delivered virtually this year and included a variety of participation and discussion strategies to ensure engagement and meaning making opportunities for staff. Teachers and staff were supported in their implementation of PD strategies and concepts through ongoing optional PD opportunities, such as monthly conversations and reflections, as well as through director meetings and class visits.

This table displays the number of school days dedicated to staff development and continuous improvement.

# 2020-21 Local Accountability Report Card (LARC) Addendum

## Local Accountability Report Card (LARC) Addendum

2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
